Commence a city tour of Kandy.

*In 1592 **Kandy** became the capital city of the last remaining independent kingdom in Sri Lanka after the coastal regions had been conquered by the Portuguese. Invasions by the Portuguese and the Dutch (16th, 17th and 18th century) and also by the British (most notably in 1803) were repelled. The last ruling dynasty of Kandy was the Nayaks of Kandy. Kandy preserved its independence until it finally fell to the British in 1815. The British deposed the king, Sri Vikrama Rajasinha, and all claimants to the throne, thus ending the last traditional monarchy of Sri Lanka, and replaced it with their monarchy. As the capital, Kandy had become home to the relic of the tooth of the Buddha which symbolizes a 4th-century tradition that used to be linked to royalty since the protector of the relic was seen fit to rule the land. Thus, the Royal Palace and the Temple of the Tooth were associated with the administrative and religious functions of the capital city. Even after its conquest by the British, Kandy has preserved its function as the religious capital of the Sinhalese and a place of pilgrimage for Buddhists, namely those belonging to the Theravada school.*
